This Stereo Musicassette - Also Gives Genuine Monaural Reproduction

To make a convenient break in the programme the recorded sides may be of unequal length. Please spool to end of tape before playing other side.

This stereo tape gives mono reproduction when played on mono equipment. It has been recorded with the DOLBY B-type noise reduction characteristic. If playback equipment incorporates a DOLBY noise reduction circuit, switch the circuit on to gain the benefit of hiss reduction. On non-DOLBY equipment quiet high frequency signals will sound brighter and clearer.
